Face detection

Face detection
1. Face detection
2. Effect preview
2.1. USB camera

MediaPipe is a cross-platform machine learning framework that can process key point detection such as hands, faces, postures, etc. in videos and images in real time.

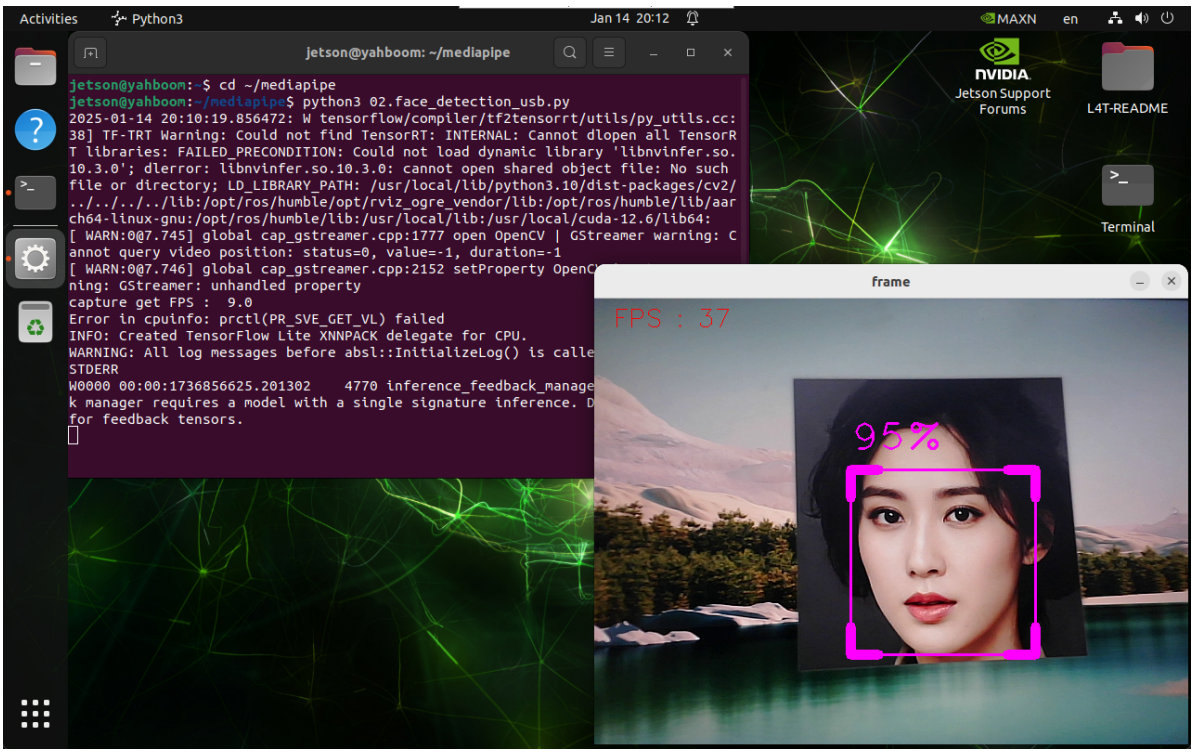
1. Face detection

MediaPipe face detection can detect and mark the location of faces and output confidence.

2. Effect preview

2.1. USB camera

```
cd ~/mediapipe
```

```
python3 02.face_detection_usb.py
```


Note: Select the camera image and press `q` to exit the program!
