Finger control

Finger control
- 1. Finger control
- 2. Effect preview
  - 2.1. USB camera

MediaPipe is a cross-platform machine learning framework that can process key point detection such as hands, faces, and postures in videos and images in real time.

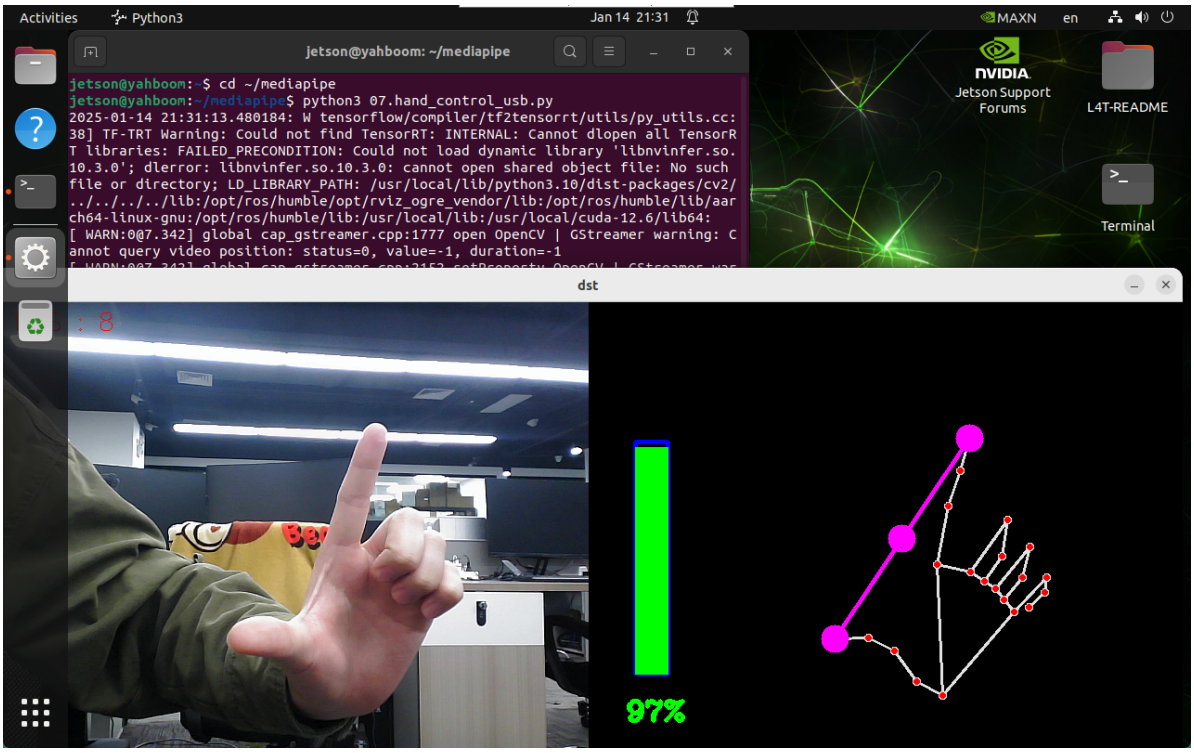
1. Finger control

MediaPipe Finger control can control the size of the progress bar on the right by controlling the distance (open/close) between the thumb and index finger.

2. Effect preview

2.1. USB camera

```
cd ~/mediapipe
```

```
python3 07.hand_control_usb.py
```


Note: Select the camera image and press `q` to exit the program!
