Overall detection

Overall detection
1. Overall detection
2.1. USB camera

MediaPipe is a cross-platform machine learning framework that can process key point detection such as hands, faces, postures, etc. in videos and images in real time.

1. Overall detection

MediaPipe Overall detection can detect and track human posture, hand key points and facial key points at the same time.

2.1. USB camera

```
cd ~/mediapipe
python3 10.holistic_usb.py
```

Note: Select the camera image and press `q` to exit the program!
